Voolcan Grupo not only seeks to transform physical spaces, but also to transcend the conventional by creating experiences in every corner we transform.

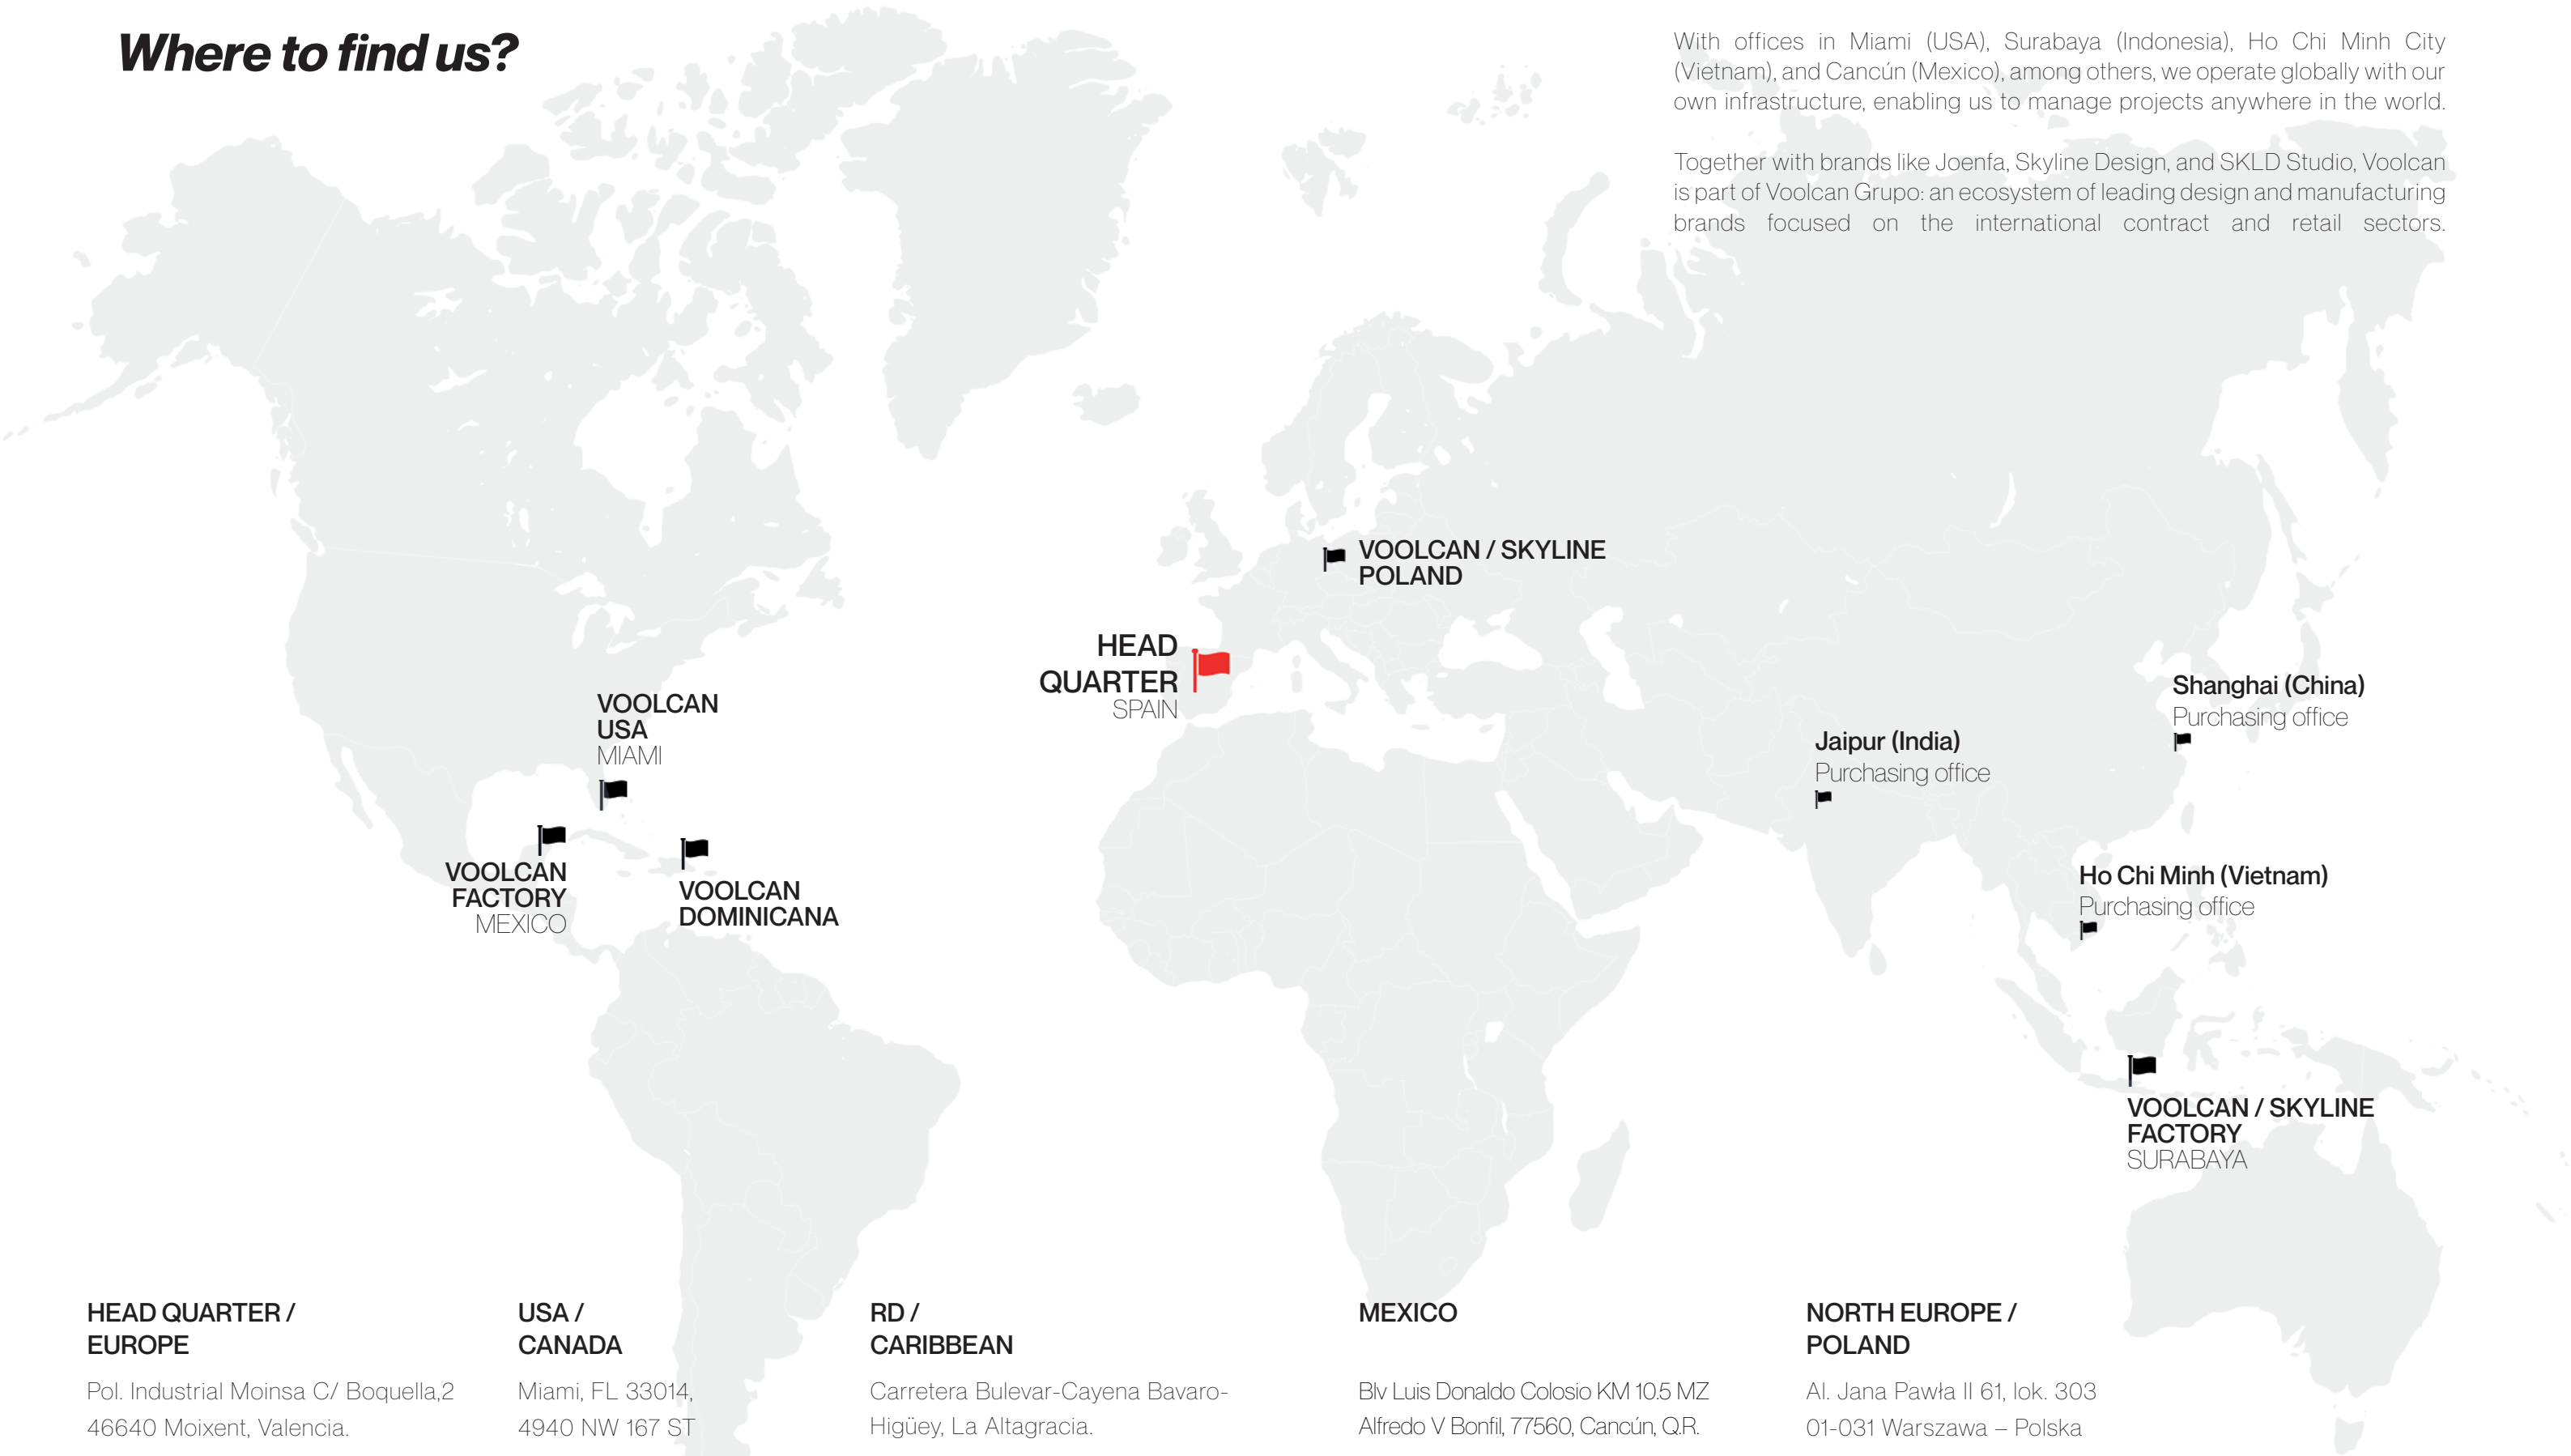

Voolcan Grupo emerges as the natural evolution of a journey defined by passion and commitment to every project. More than a business group, it is the union of specialized brands with a shared purpose: to offer a comprehensive service in the home and contract sectors. Through innovation, design, and excellence, we transform every project into a unique experience, bringing our vision to spaces around the world.

Where to find us?

With offices in Miami (USA), Surabaya (Indonesia), Ho Chi Minh City (Vietnam), and Cancún (Mexico), among others, we operate globally with our own infrastructure, enabling us to manage projects anywhere in the world.

Together with brands like Joenfa, Skyline Design, and SKLD Studio, Voolcan is part of Voolcan Grupo: an ecosystem of leading design and manufacturing brands focused on the international contract and retail sectors.

VOOLCAN Grupo

With strategically located facilities in Indonesia (100,000 m²), La Font de la Figuera (50,000 m²), and Moixent (50,000 m²), the group has built a solid infrastructure that allows it to offer global solutions with meticulous attention to quality and service.

Ongoing investment in technology, design, and research has been key to maintaining its leadership in the sector. Additionally, its strong commitment to sustainability is reflected in practices such as the installation of solar panels and the use of recyclable materials, ensuring that every project is not only innovative but also environmentally responsible.

With a forward-looking vision, the group provides customized solutions for each client, ensuring that every space is unique, functional, and full of style. Its mission is to transform spaces that not only meet client needs but also inspire and create memorable experiences.

1991

joenfa EST. 1991

At the end of the 1970s, Emilio Revert Calatayud began his career in the furniture sector. His experience and determination led him, amid a crisis in the industry, to found JOENFA S.L. in 1991. Initially based in Moixent, Valencia, the company focused on the import and export of furniture and decorative objects. However, its steady growth prompted a move in 1993 to La Font de la Figuera, where it now operates from a 50,000 m2 facility that allows it to continue expanding its vision.

Specializing in the creation of pieces with a strong natural character, Joenfa combines artisanal quality with exclusive design, where wood and natural fibers take center stage. Inspired by nature and the boho-chic style, its furniture creates warm, elegant, and sophisticated environments, both indoors and outdoors. With a firm commitment to timelessness and authenticity, the brand offers furniture and décor capable of transforming any space into a haven of harmony and style.

2003

 Skyline Design

The addition of Emilio Revert Pedrón in 1996 marked a turning point for the company, opening new opportunities in the furniture sector. By identifying a niche in the international market and the contract sector, Skyline Design® was founded in 2003, as a collaboration between the Revert family and local entrepreneurs. Production was centralized in Indonesia, while the Reverts took charge of global distribution for both residential and contract projects.

In 2005, with the arrival of José Revert Pedrón, the combination of the brothers' commercial vision and organizational skills rapidly propelled the brand's growth. Skyline Design® became known for its innovative designs, cutting-edge materials, and ability to adapt to client needs, establishing itself as a benchmark in the sector and working with leading hotel and leisure chains worldwide.

Today, Skyline Design® is an internationally recognized brand in outdoor furniture, renowned for its quality, exclusivity, and prestige. With facilities spanning 100,000 m2 in Indonesia and 50,000 m2 in La Font de la Figuera, alongside its sister company Joenfa, the brand has a presence in key markets such as the United Kingdom, Italy, the United States, Mexico, the Dominican Republic, and Thailand.

Blending art and craftsmanship, Skyline Design® transforms outdoor spaces into luxurious sanctuaries with a sustainable approach. Its collections stand out for their elegance and functionality, offering unique pieces—from daybeds over three meters long to loungers—designed for maximum comfort.

2013

VOOLCAN

FULL CONTRACT PROJECTS

The Revert Pedrón brothers’ focus on the hospitality sector was already deeply rooted in their business trajectory, but their entrepreneurial spirit led them to create Voolcan in 2013, with the goal of fully covering contract projects. To achieve this, they acquired 50,000 m2 in Moixent, where they built a specialized technical team dedicated to manufacturing furniture and accessories for this sector.

By implementing advanced technologies such as 5-axis CNC controls, fine-edge application machinery, ultraviolet polishing, and robotic painting and packaging lines, VOOLCAN combines technical innovation with a highly skilled workforce. Additionally, the company holds licenses and machinery to manufacture products for the Kryon brand, associated with PORCELANOSA.

Its comprehensive approach covers everything from manufacturing to installation, providing technical advice and flexibility throughout the entire process. With an impressive client portfolio, Voolcan has collaborated with major hotel groups such as Royalton, Meliá, Marriott, Palladium, and Hyatt, creating exceptional spaces distinguished by their functionality and distinctive design.

2024

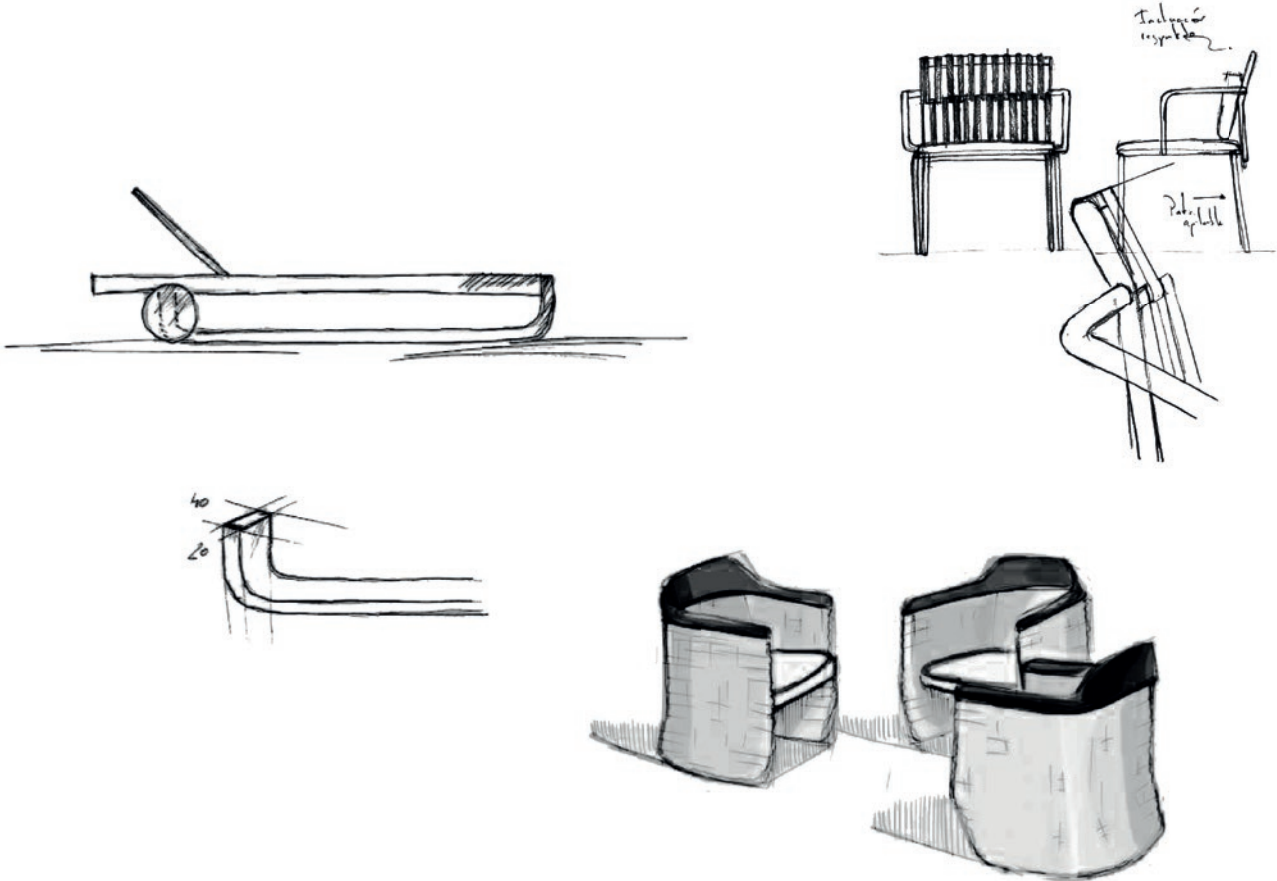

SKLD

STUDIO

In 2024, Voolcan Grupo reinforced its commitment to design and innovation with the creation of SKLD Studio, a brand established to redefine designer furniture. Its inception responds to the growing demand for exclusive pieces that blend creativity, high-quality materials, and meticulous craftsmanship.

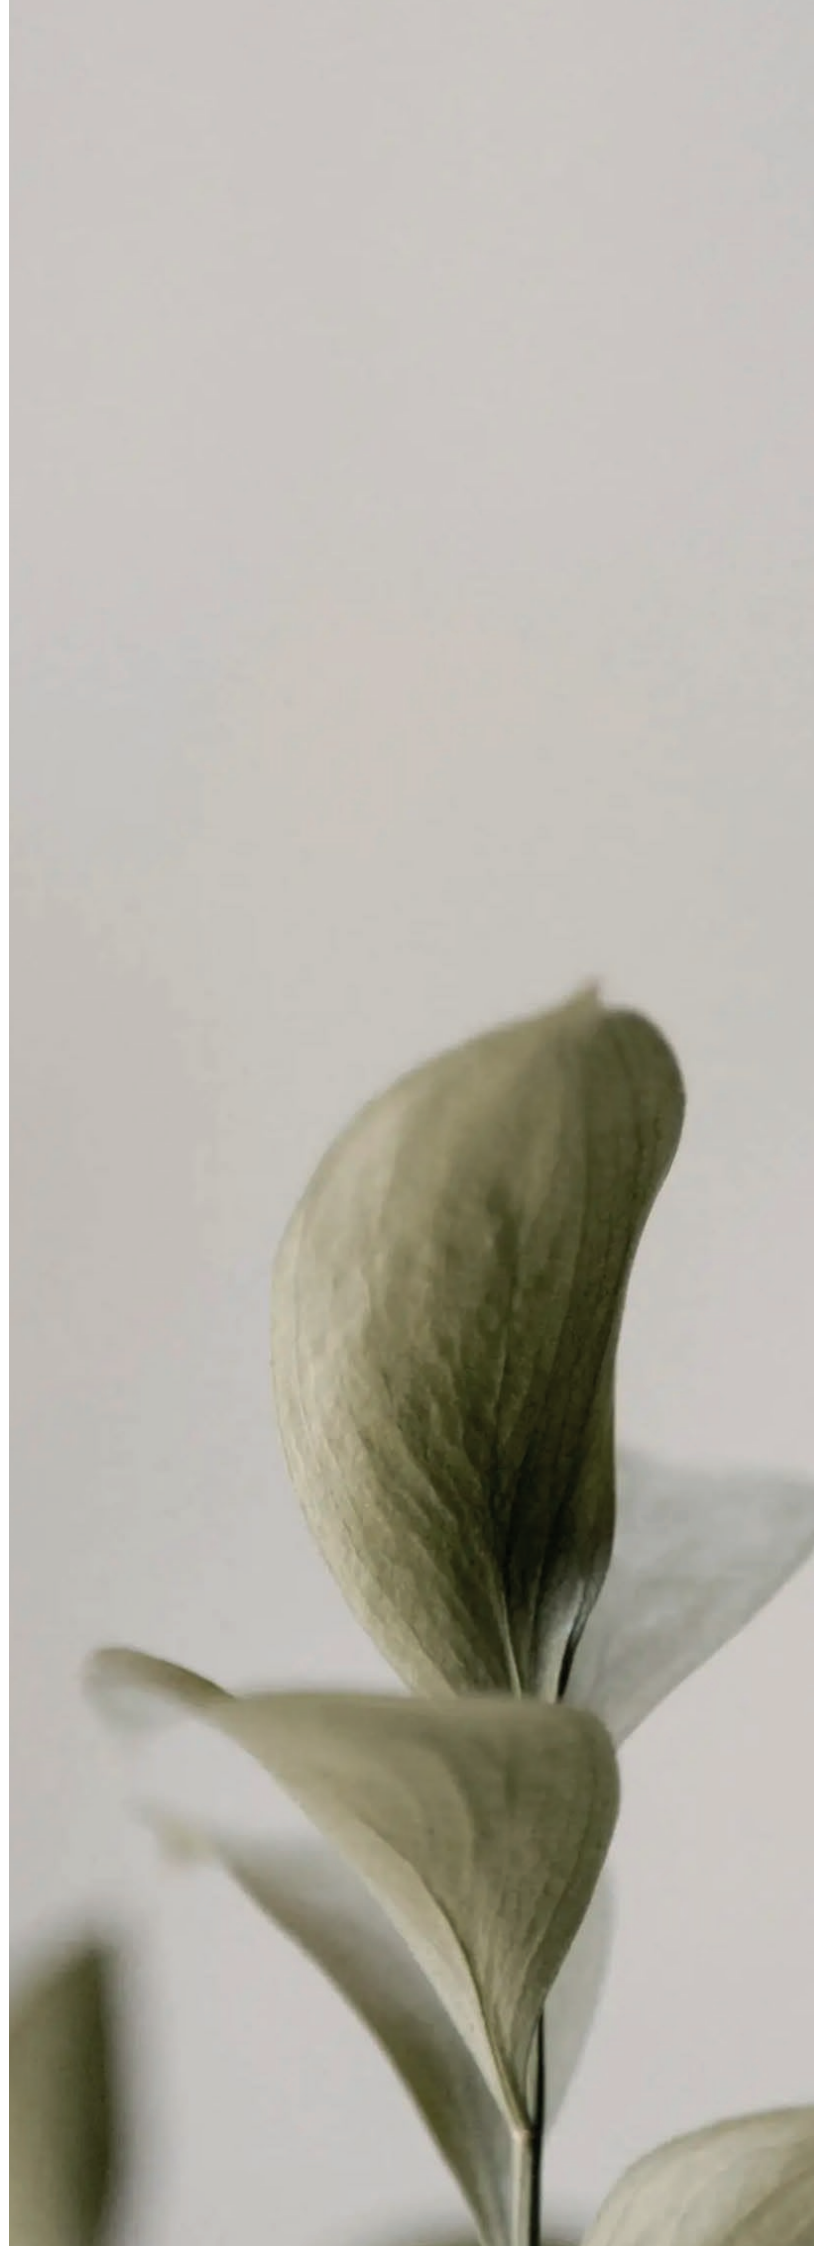

What sets SKLD Studio apart is its close collaboration with renowned designers such as Alberto Lievore, La Mamba, and Eli Gutiérrez, among others. Their unique vision shapes furniture that goes beyond functionality, becoming true expressions of style and sophistication. Each piece is designed to transform spaces, creating environments that are unique and full of character.

With a forward-looking vision, SKLD Studio continues to explore new forms of expression in furniture, driving creativity and redefining design standards. Its mission is clear: to offer pieces that not only enhance spaces but also evoke emotions and experiences, bringing character and exclusivity to every project.

PREPARED FOR THE FUTURE.

ecological **COMMITMENT**

Committed to sustainability and environmental protection, Voolcan Grupo has implemented various eco-friendly production processes across all its factories over the years. The goal of these initiatives is to reduce CO2 emissions and minimize waste.

In recent years, two photovoltaic plants have been installed at its factory, with a total energy capacity of 124 kWh for self-consumption.

The environmental benefits of this system are equivalent to: 52.8 tons of carbon consumption saved annually, 62,741 tons of CO2 emissions avoided each year, and the impact of planting 110 trees annually.

All four brands prioritize efficient energy systems, natural products sourced from sustainable environments, and the use of recycled materials.

There is still a long way to go, but with commitment and responsibility, we will continue to take environmental measures to protect our surroundings and contribute to a better world.

Barceló Santa Cruz Contemporáneo

Santa Cruz de Tenerife, 2025

In the heart of Santa Cruz de Tenerife, the **Barceló Santa Cruz Contemporáneo** stands as a renewed icon of the city. This historic building—with over 70 years of history—has undergone a comprehensive renovation and reopened in 2025, designed to combine urban comfort with contemporary style.

For this project, our team was responsible for the custom manufacturing and installation of the furniture in its 135 rooms, as well as in the hotel's main areas: the lobby, restaurants, and the iconic rooftop, contributing to the hotel's new aesthetic and functional identity.

Dreams Playa Esmeralda

Miches, 2025

Located on the stunning and pristine beaches of Playa Esmeralda in Miches, the **Dreams Playa Esmeralda Resort & Spa** has established itself as a leading family destination in the Caribbean, where contemporary luxury naturally blends with the lush tropical beauty.

For this project, our team was responsible for the custom manufacturing and installation of furniture in the guest rooms, as well as equipping the pool and beach areas. Each piece was designed to meet the demands of the Caribbean environment, combining functionality, durability and style, while creating welcoming and lasting spaces that reinforce the resort’s unique identity.

Secrets Playa Esmeralda

Miches, 2025

Located on the stunning coast of Miches, the **Secrets Playa Esmeralda Resort & Spa** stands as an exclusive adults-only retreat, where tropical nature, lush gardens, and ocean views create a truly dreamlike setting.

For this project, our team was responsible for the custom production and installation of furniture in the 500 rooms and suites, as well as outfitting the common and outdoor areas. The result is a resort that blends tropical style with modern elegance, creating spaces that convey tranquility and exclusivity.

Zoëtry Agua

Punta Cana, 2025

A beachfront location in Uvero Alto, **Zoëtry Agua Punta Cana** is an adults-only boutique resort that redefines luxury through tranquility, privacy, and a deep connection with nature.

In this comprehensive renovation, our team managed the custom manufacturing and installation of the 84 rooms and villas, including furniture, decorative elements, and textiles. We also led the redesign of the four restaurants, achieving a cohesive aesthetic throughout the resort with meticulous attention to details. The result is warm and inviting spaces with a strong identity, where design and personalization elevate each guest's unique experience.

Royalton Punta Cana, Punta Cana

Located on the idyllic beaches of Punta Cana, Royalton Punta Cana offers a sophisticated and relaxing experience.

For this project, our team handled the custom manufacturing and installation of the guest rooms, as well as the renovation and outfitting of the common areas, bringing design, functionality, and a refreshed aesthetic to the resort's most iconic spaces.

Whyndham Alltra, Punta Cana

Located in the idyllic area of Uvero Alto, Wyndham Alltra Punta Cana blends the tropical essence of the Caribbean with the comfort and luxury of an all-inclusive resort.

For this project, our team handled the guest rooms, featuring an impressive custom headboard designed as the centerpiece and true symbol of identity for each space.

RH Arena, Gandía

Located in the heart of Gandía and just steps from the beach, RH Arena offers a welcoming retreat.

Our team brought the 176 guest rooms to life with custom furniture that combines style and functionality: headboards, practical storage solutions and integrated work areas. Each element contributes to creating a cozy and harmonious environment.

Labtwentytwo, Barcelona

Labtwentytwo, located in the heart of Barcelona, offers a contemporary hotel concept where design, comfort, and functionality come together in perfect harmony.

Our team worked on the guest rooms with custom furniture, paying special attention to the innovative headboard, which also serves as an integrated seating area. Each element helps create a welcoming, functional space full of character.

Residencia Las Arcadias El Encinar, Madrid

With a privileged location, this residence stands out for its welcoming design and spacious common areas.

Our team was responsible for the custom manufacturing and installation of furniture in spaces such as the reception, restaurant, and outdoor areas, among others, always ensuring quality and comfort.

Cayo Levantado Resort, Samaná

In the heart of the idyllic Cayo Levantado, there is a unique setting that combines natural beauty with tranquility.

Our team was responsible for the custom manufacturing and installation of furniture for the restaurant and outdoor areas, with a design that highlights the natural aesthetic, using wood and fibers to create warmth and a direct connection with the surrounding landscape.

Novotel Valencia Lavant, Valencia

Located between the historic center and the Palacio de Congresos, Novotel Valencia Lavant has become a new benchmark in the city, featuring a rooftop terrace with panoramic views.

For this project, we handled the installation of the rooftop furniture, creating a versatile and welcoming space where design, comfort, and the views come together to offer a unique experience.

Donoma Las Terrenas Resort & Spa, Las Terrenas

Located in a privileged setting, Donoma Las Terrenas offers an environment where nature and exclusivity merge to create a unique beachfront experience.

For this project, we handled the installation of furniture in the outdoor areas, providing a setting that invites relaxation and enjoyment of the surrounding landscape.

Contract Solutions.

1. Establishing the vision

We begin with an initial meeting with the client to gain a thorough understanding of their needs and expectations.

This first step is crucial for establishing a clear vision of the project, ensuring that every detail aligns with what the client wants and requires.

2. Creating the proposal

In this phase, we focus on developing a comprehensive proposal, including furniture design, the materials to be used (such as microcement, wood, fibers, etc.), and the color palette.

We ensure that each piece reflects the client's personality and specific needs, integrating seamlessly into the space.

3. Proposal presentation

We present a detailed proposal and work closely with the client, making adjustments or changes until they are completely satisfied with the final result.

We ensure that every detail is perfectly aligned with the initial vision.

4. Manufacturing and quality control

Once the design is approved, we begin manufacturing the pieces that will be part of the project.

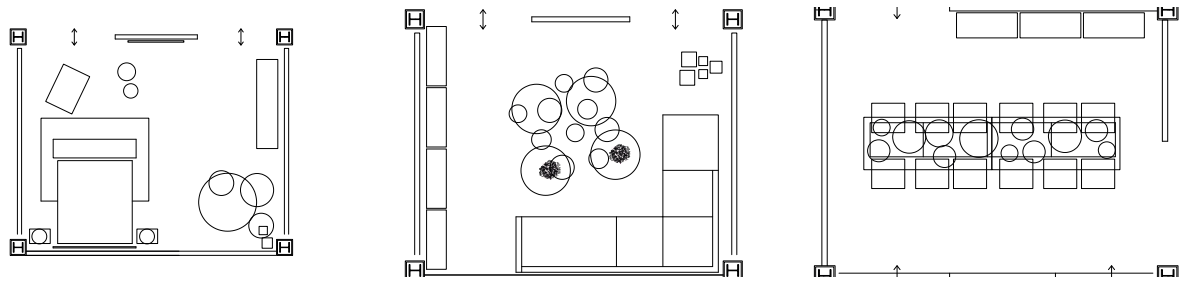

Throughout the entire process, we maintain strict quality control and coordinate regular factory visits with the client to monitor progress and ensure everything meets the agreed-upon standards.

5. Delivery and installation

Once the manufacturing process is complete, our highly skilled team handles the delivery and installation of the carpentry and project elements.

We ensure that everything fits perfectly within the space and that the final experience matches the original plan, guaranteeing a flawless result.

Showroom retail.

A 2,200 m2 space dedicated to showcasing comprehensive furniture and décor solutions. In this expansive environment, clients can explore fully styled rooms that reflect the latest trends in interior and exterior design. The showroom is divided into themed areas, allowing visitors to appreciate the versatility and quality of our brands: Joenfa, Skyline Design, and SKLD Studio.

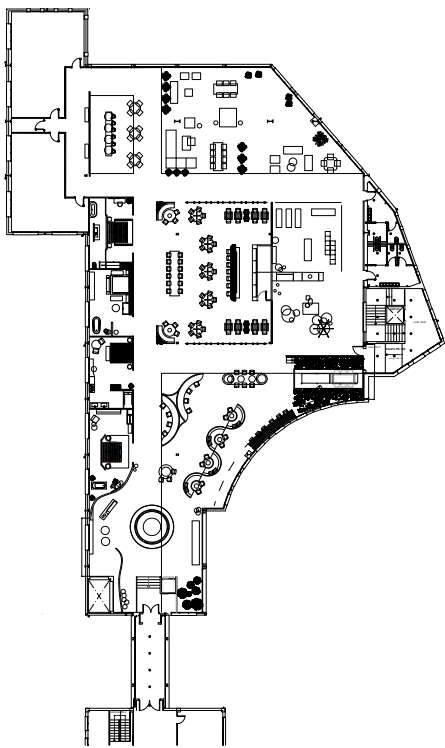

This showroom not only showcases an extensive range of products but also offers personalized consulting services, where our experts guide each client in finding the solutions that best suit their lifestyle and needs.

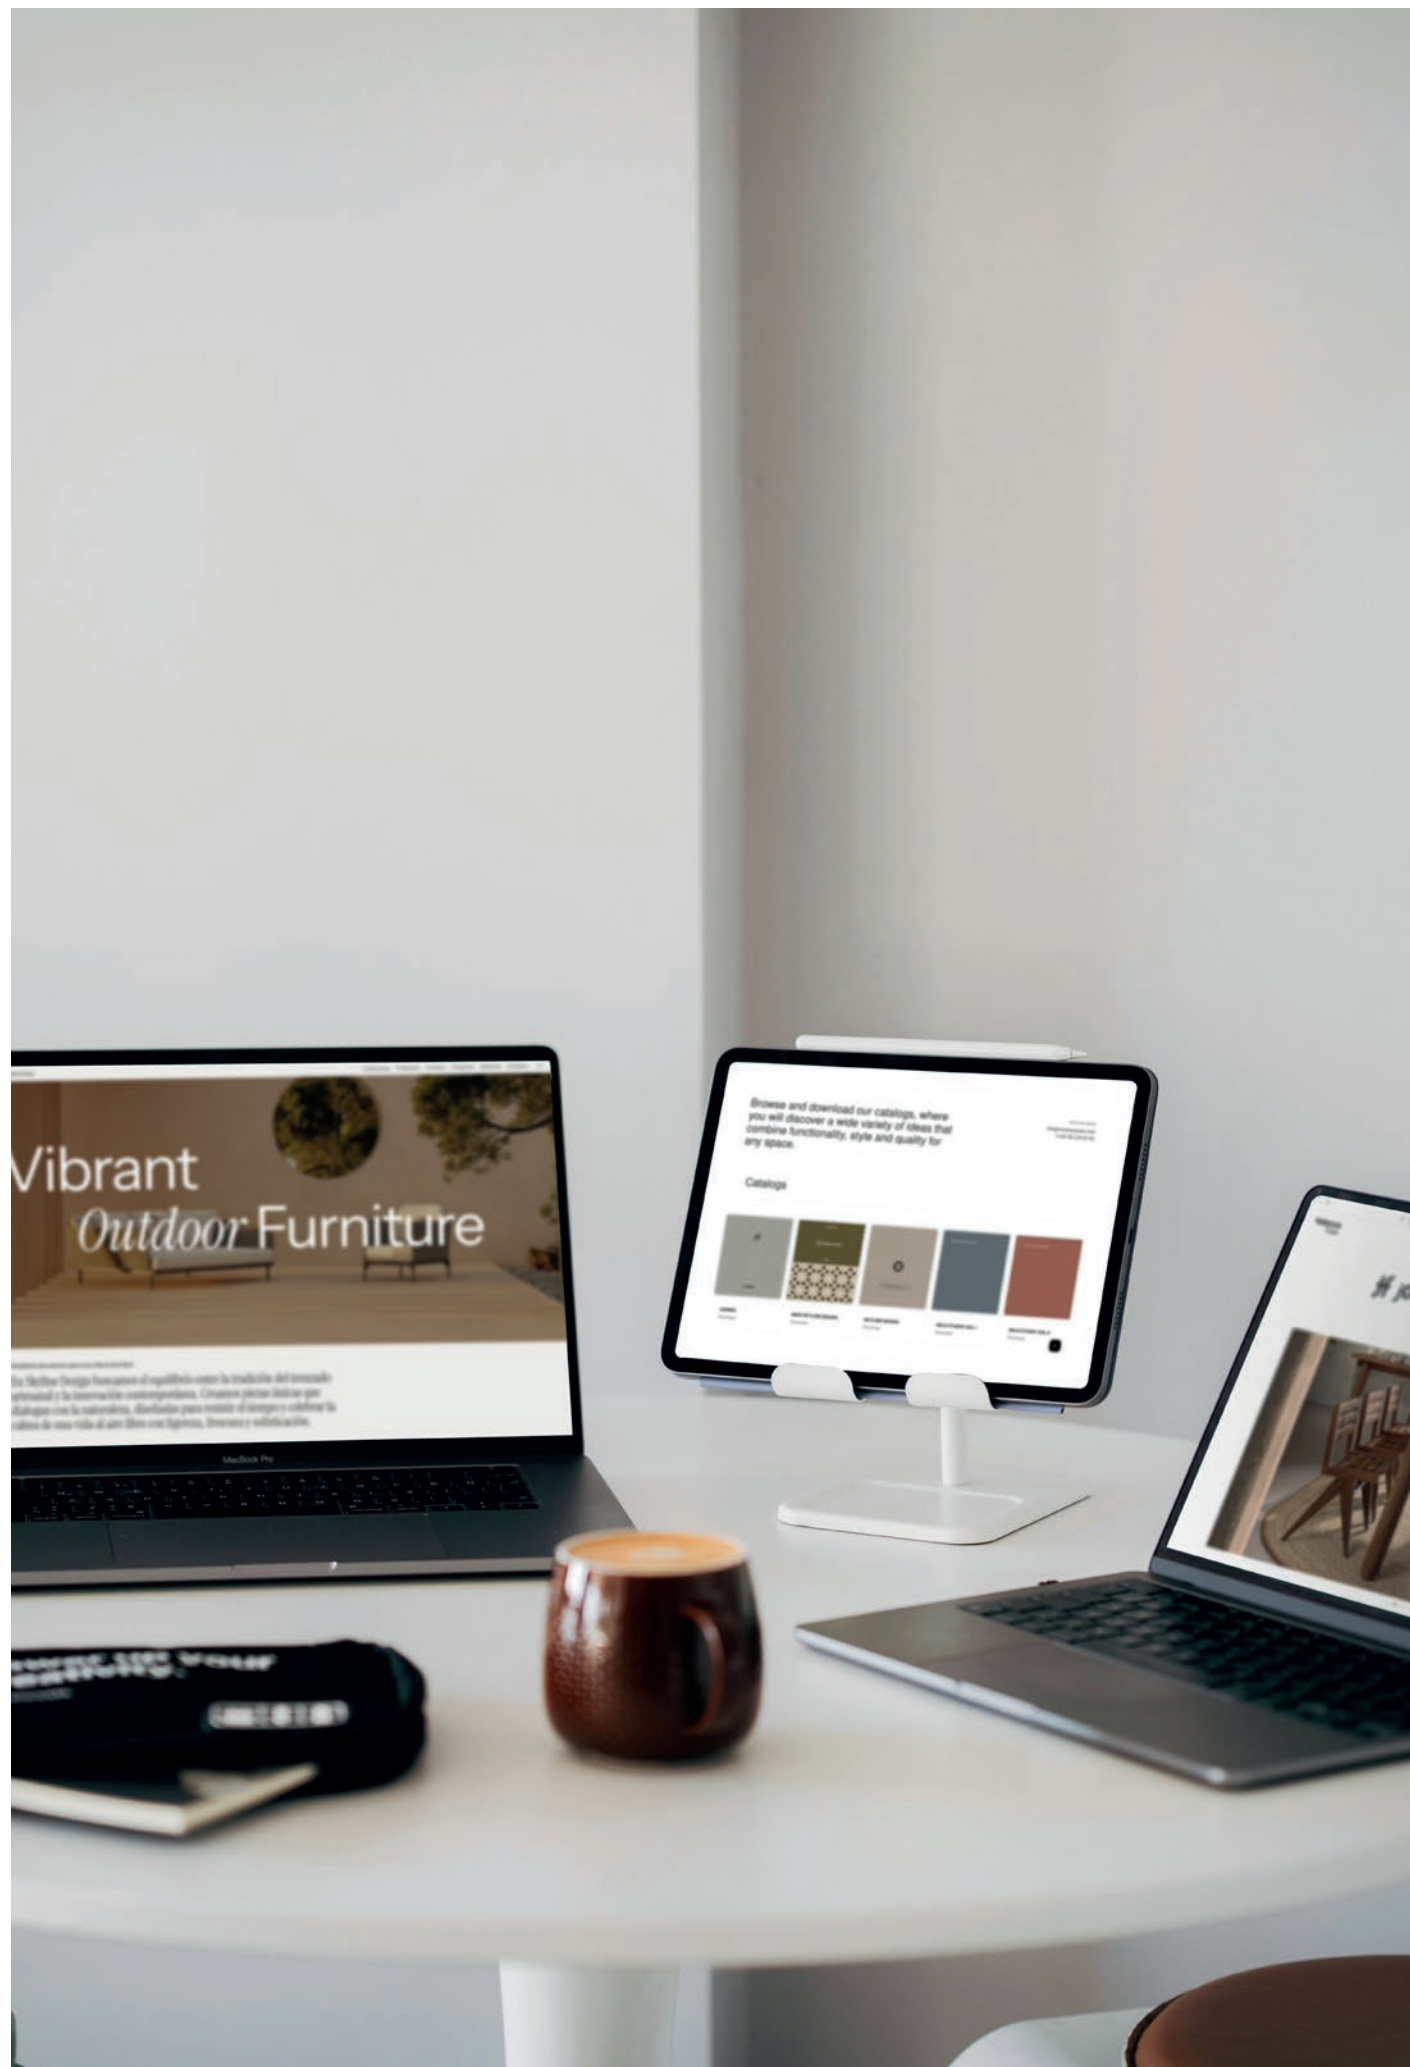

Showroom hospitality.

This 2,500 m2 space offers a wide exhibition of products and innovative designs, allowing architects, designers, and other professionals to explore various options for their projects. The showroom not only reflects the latest design trends but also highlights the tangible results of our expertise, showcasing real examples of what we can achieve in contract projects.

Every corner is carefully designed to showcase how our solutions transform spaces, from custom carpentry to the finest finishes, all within an environment that reflects the personalization and quality we guarantee in every project.

Explore the fascinating world of Voolcan Grupo through our website. This platform provides a quick and intuitive way to access all information about our brands, with direct links to their respective websites. We invite you to fully immerse yourself in the experience.
