our
CLIENTS

Voolcan Grupo not only seeks to transform physical spaces, but also to transcend the conventional, creating experiences in every space we transform.

Voolcan Grupo represents the natural evolution of a journey defined by passion and commitment to every project. More than a business group, it is the alliance of specialized brands united by a shared purpose: delivering comprehensive solutions for the home and contract sectors. Through innovation, design, and excellence, we transform each project into a unique experience, bringing our vision to spaces across the globe.

VOOLCAN
Grupo

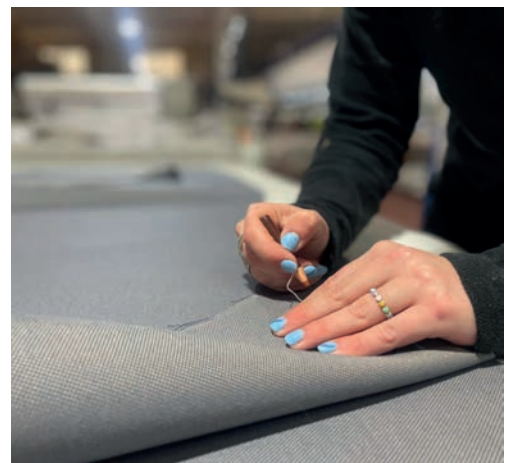

VOOLCAN Grupo

With strategically located facilities in Indonesia (100,000 m²), La Font de la Figuera (50,000 m²), and Moixent (50,000 m²), the group has built a solid infrastructure that enables it to deliver global solutions with meticulous attention to quality and service.

Continuous investment in technology, design, and research has been key to sustaining its leadership in the sector. Equally, a strong commitment to sustainability is reflected in initiatives such as the installation of solar panels and the use of recyclable materials—ensuring that every project is not only innovative but also environmentally responsible.

With a forward-looking vision, the group offers tailored solutions for each client, creating spaces that are unique, functional, and stylish. Its mission is to transform environments that not only meet clients' needs but also inspire and deliver memorable experiences.

1991

jf joenfa [®] EST. 1991

In the late 1970s, Emilio Revert Calatayud began his career in the furniture industry. His experience and determination led him, at the height of an industry crisis, to found JOENFA S.L. in 1991. Originally based in Moixent, Valencia, the company focused on the import and export of furniture and decorative objects. Steady growth soon followed, and by 1993, the company relocated to La Font de la Figuera, where it now operates in a 50,000 m2 facility that continues to drive the expansion of its vision.

Specializing in the creation of pieces with a distinctly natural character, Joenfa blends artisanal quality with exclusive design, highlighting wood and natural fibers as its core materials. Inspired by nature and boho-chic style, its furniture brings warmth, elegance, and sophistication to both indoor and outdoor spaces. With a strong commitment to timelessness and authenticity, the brand offers furniture and décor that can transform any environment into a sanctuary of harmony and style.

2003

The arrival of Emilio Revert Pedrón in 1996 marked a turning point for the company, opening new opportunities in the furniture industry. Recognizing a niche in the international and contract markets, Skyline Design® was founded in 2003 as the result of a collaboration between the Revert family and local entrepreneurs. Production was centralized in Indonesia, while the Reverts took charge of global distribution, serving both residential and contract projects.

In 2005, with the addition of José Revert Pedrón, the combination of the brothers' commercial vision and organizational skills accelerated the brand's growth. Skyline Design® quickly stood out for its innovative designs, cutting-edge materials, and ability to adapt to clients' needs, establishing itself as a benchmark in the sector and partnering with major hotel and leisure groups worldwide.

Today, Skyline Design® is an internationally recognized brand in outdoor furniture, celebrated for its quality, exclusivity, and prestige. With 100,000 m2 of facilities in Indonesia and 50,000 m2 in La Font de la Figuera—together with its sister company Joenfa—it has a strong presence in key markets such as the United Kingdom, Italy, the United States, Mexico, the Dominican Republic, and Thailand. Blending art and craftsmanship, the brand transforms outdoor spaces into sanctuaries of luxury with a sustainable approach. Its collections stand out for their elegance and functionality, offering unique pieces—from daybeds over three meters long to loungers—designed for ultimate comfort.

2013

VOOLCAN

FULL CONTRACT PROJECTS

The Revert Pedrón brothers' connection to the hospitality sector was already deeply rooted in their business journey, but their entrepreneurial drive led them to create Voolcan in 2013, with the aim of delivering comprehensive contract projects. To achieve this, they acquired a 50,000 m² facility in Moixent and built a specialized technical team dedicated to the production of furniture and accessories for the hospitality industry. By incorporating advanced technologies such as 5-axis CNC machinery, fine-edge banding equipment, ultraviolet polishing systems, and fully automated painting and packaging lines, Voolcan combines technical innovation with a highly skilled workforce. The company also holds the license and equipment for manufacturing Kryon products, associated with PORCELANOSA.

Its integrated approach covers every stage—from manufacturing to installation—providing technical guidance and flexibility throughout the entire process. With an impressive client portfolio, Voolcan has collaborated with leading hotel groups such as Royalton, Meliá, Marriott, Palladium, and Hyatt, creating exceptional spaces defined by functionality and distinctive design.

2024

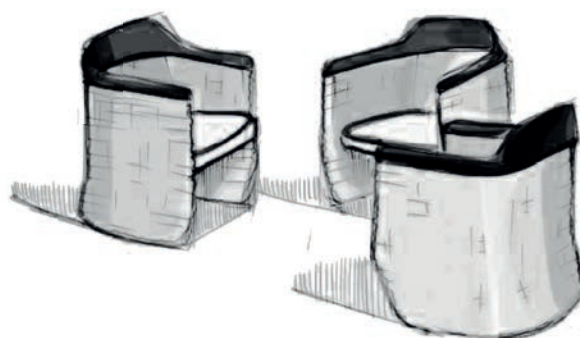

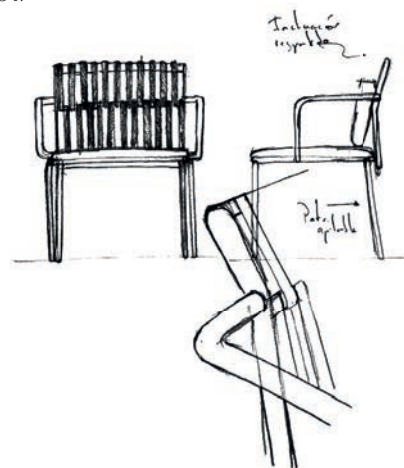

SKLD

STUDIO

In 2024, Voolcan Grupo strengthened its commitment to design and innovation with the launch of SKLD Studio, a brand created to redefine signature furniture. Its origin stems from the growing demand for exclusive pieces that fuse creativity, premium materials, and meticulous craftsmanship.

What sets SKLD Studio apart is its close collaboration with renowned designers such as Alberto Lievore, La Mamba, and Eli Gutiérrez, among others. Their unique vision shapes furniture that goes beyond functionality, transforming it into true expressions of style and sophistication. Each piece is designed to transform spaces, creating distinctive environments with their own identity.

With its eyes set on the future, SKLD Studio continues to explore new forms of expression in furniture design, driving creativity and redefining industry standards. Its mission is clear: to offer pieces that not only enhance spaces but also evoke emotions and experiences, bringing character and exclusivity to every project.

SHAPING THE FUTURE.

ecological
COMMITMENT

Committed to sustainability and environmental protection, Voolcan Grupo has implemented various environmentally friendly production processes in all its factories over the years.

The aim of these initiatives is to reduce CO₂ emissions and minimize waste. In recent years, two photovoltaic plants have been installed at its factory, with a total energy capacity of 124 kWh for self-consumption.

This environmental benefit is equivalent to: 52.8 tons of carbon consumption saved annually, 62,741 tons of CO₂ emissions avoided each year and the impact of planting 110 trees annually.

All four brands are committed to efficient energysystems, natural products from sustainable environments and the use of recycled materials.

There is still a long way to go, but with commitment and responsibility, we will continue to take environmental measures to protect our environment and contribute to a better world.

Gran Hotel Mas d'en Bruno

Spain, 2024

Nestled in the serene beauty of the Priorat region, the exclusive boutique **hotel Mas d'en Bruno** offers a luxurious retreat surrounded by vineyards.

In this exceptional setting, our team took charge of the production and installation of 22 rooms and dining areas, crafting a space of unparalleled sophistication under the expert guidance of the interior design studio Aset.

Each of the 22 rooms at Mas d'en Bruno has been conceived as a sanctuary of elegance, where bespoke craftsmanship plays a central role in capturing the true essence of luxury and comfort.

Royalton Chic Antigua

Antigua y Barbuda, 2024

Royalton Chic Antigua is an exclusive adults-only resort located on the stunning Dickenson Bay in Antigua, a paradise destination with crystal-clear waters and white sandy beaches.

For this project, Voolcan Grupo managed the bespoke production of guest rooms, suites, and overwater villas, featuring headboards with natural motifs that harmonize with the surroundings. In addition, the team oversaw the installation of furniture in common areas, restaurants, and outdoor spaces, creating elegant and functional environments that elevate the resort’s luxury and comfort experience.

Secrets Playa Esmeralda

Dominican Republic, 2025

Situated along the pristine coastline of Miches, **Secrets Playa Esmeralda Resort & Spa** stands as an exclusive adults-only retreat, where tropical nature, lush gardens, and ocean views create a truly dreamlike setting.

For this project, our team handled the bespoke production and installation of furniture in all 500 guest rooms and suites, as well as the outfitting of common and outdoor areas. The result is a resort that blends contemporary tropical style with modern elegance, creating spaces that exude tranquility and exclusivity.

Hotel El Fuerte Marbella

Spain, 2024

The iconic **Hotel El Fuerte Marbella**, with its rich history on the Costa del Sol, has undergone a spectacular transformation, achieving a prestigious 5-star status.

Voolcan Grupo played a key role in this metamorphosis, overseeing the bespoke production and installation of guest rooms, while also leaving its signature in the restaurants and lobby areas.

Designed by Jaime Beriestain Studio, the project masterfully blends classical influences with a contemporary touch, creating spaces of timeless elegance.

Wyndham Alltra

Punta Cana, 2025

Located in the paradisiacal Uvero Alto area, **Wyndham Alltra Punta Cana** combines the tropical essence of the Caribbean with the comfort of an all-inclusive resort.

For this project, our team focused on giving the guest rooms character through a striking headboard, designed as the centerpiece and a symbol of the space's identity. The same attention to detail was applied to the restaurant, featuring dining tables in microcement that bring both personality and durability, as well as other areas where the furniture enhances the resort's overall atmosphere.

Fairmont La Hacienda Costa del Sol

Spain, 2025

Located along the tranquil coast of Cádiz, **Fairmont La Hacienda Costa del Sol** emerges as a luxurious retreat, blending the serenity of its natural surroundings with the elegance of Mediterranean architecture.

For this project, our team focused on bespoke carpentry for the guest rooms, creating key pieces such as minibars, coffee tables, and consoles, all designed to harmonize seamlessly with the resort's contemporary aesthetic. Each element was crafted using natural materials and high-quality finishes, combining functionality and style in perfect harmony with the environment.

Hotel Yaramar Fuengirola

Spain, 2025

Located on Los Boliches Beach, **Hotel Yaramar Fuengirola** begins a new chapter with a renovation that modernizes its spaces while preserving its Mediterranean essence.

Our team was responsible for transforming the guest rooms, incorporating bespoke furniture that combines functionality with design, and redesigning the bars across the property, creating spaces that encourage interaction and enjoyment.

CLASSIFICATION ★★★★★

LOCATION Fuengirola, Spain

YEAR 2025

AREAS Common areas and rooms

Royalton Punta Cana, Punta Cana

Located on the paradisiacal beaches of Punta Cana, Royalton Punta Cana is the perfect destination for those seeking a sophisticated and relaxing experience.

For this project, we carried out the bespoke production and installation of guest rooms, as well as the refurbishment and outfitting of common areas, bringing design, functionality, and a fresh sense of style to the resort's key spaces.

RH Hotel Arena, Gandía

In the heart of Gandía, just steps from the city and facing the sea, this hotel offers the perfect destination to enjoy the Mediterranean.

For this project, we handled the bespoke production and installation of furniture across all 176 guest rooms. This comprehensive work featured key pieces such as headboards, minibars, wardrobes, and desks, all designed to combine functionality and style seamlessly.

ITC Madrid by Soho Boutique, Madrid

Situated on the beautiful Uvero Alto Beach, this resort is the perfect destination for those seeking an all-inclusive luxury experience.

Our team managed the bespoke production and installation of furniture in guest rooms, common areas, the sports bar, and beachside restaurants. Using high-quality materials and modern design, the project aimed to capture the resort's freshness and sophistication throughout every space.

Club Med Les Boucaniers, Martinica

Located on the paradisiacal island of Martinique, Club Med Les Boucaniers is an exclusive resort surrounded by white sandy beaches and crystalclear waters.

Our team handled the custom manufacturing and installation of furniture in the rooms and common areas. Our work focused on creating a sophisticated and functional environment, ensuring that every detail reflected the tropical essence of the resort. refined style.

Residencia Las Arcadias El Encinar, Madrid

Located in a privileged setting, this residence stands out for its welcoming design and spacious common areas, created to promote community and well-being.

Our team handled the custom manufacturing and installation of furniture in spaces such as the reception, restaurant, and outdoor areas, among others, ensuring quality and comfort.

Cayo Levantado Resort, Samaná

In the heart of the paradisiacal island of Cayo Levantado, there is a unique setting that combines natural beauty and tranquility.

Our team handled the custom manufacturing and installation of furniture for the restaurant and outdoor areas, with a design that highlights the natural aesthetics, using wood and fibers that bring warmth and a direct connection to the landscape.

Novotel Valencia Lavant, Valencia

Located between the historic center and the Palacio de Congresos, Novotel Valencia Lavant stands out as a new city landmark, featuring a rooftop that dominates the Valencian skyline.

For this project, we oversaw the installation of rooftop furniture, creating a versatile and inviting space where design, comfort, and panoramic views come together to offer a unique urban experience.

Barceló Benidorm Beach, Benidorm

Located in the heart of Benidorm, this hotel offers a unique experience, combining comfort and design in a privileged setting.

For this project, we handled the bespoke production and installation of furniture in guest rooms, bars, and outdoor areas, delivering a sophisticated aesthetic that creates a distinctive experience both indoors and outdoors.

Contract solutions.

1. Establishing the vision

We begin with an initial meeting with the client to gain a deep understanding of their needs and expectations.

This first step is crucial to establishing a clear vision for the project, ensuring that every detail aligns with what the client wants and requires.

2. Creating the proposal

In this phase, we focus on creating a comprehensive proposal, including furniture design, the materials to be used (such as microcement, wood, fibers, etc.), and the color palette.

We ensure that each piece reflects the client's personality and specific needs, seamlessly integrating into the space.

3. Proposal presentation

We present a detailed proposal and work closely with the client, making adjustments or modifications until they are completely satisfied with the final result.

We ensure that every detail is perfectly aligned with the initial vision.

4. Manufacturing & quality control

With the design approved, we begin the manufacturing of the pieces that will be part of the project.

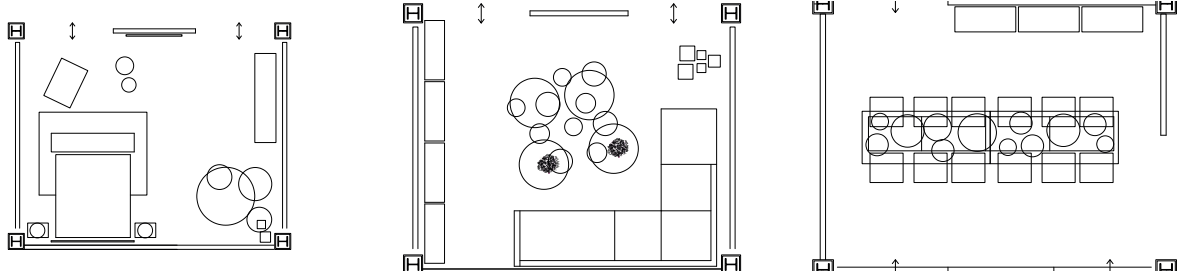

Throughout the process, we maintain strict quality control and coordinate regular visits to our factory with the client to supervise progress and ensure that everything aligns with the agreed specifications.

5. Delivery & installation

Once the manufacturing process is complete, our highly qualified team takes care of the delivery and installation of the carpentry and project elements.

We ensure that everything fits perfectly within the space and that the final experience aligns exactly with the original plan, guaranteeing a flawless result.

Showroom retail.

An expansive 2,200 m2 showroom designed to showcase comprehensive, high-end furniture and décor solutions. This meticulously curated space allows clients to immerse themselves in fully realized interiors and exteriors that embody the latest design trends. Divided into thoughtfully crafted thematic areas, the showroom highlights the versatility and superior craftsmanship of our brands: Joenfa, Skyline Design, and SKLD Studio.

More than just an exhibition, it offers a bespoke consulting experience, where our experts provide tailored guidance to help clients discover the perfect solutions that align with their aesthetic vision and functional needs.

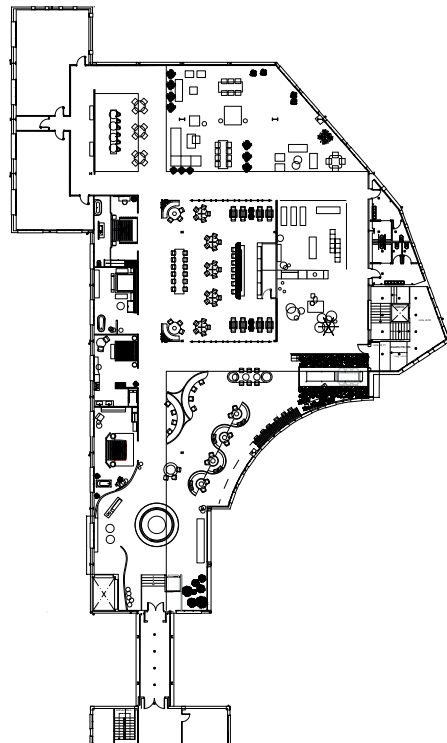

Showroom hospitality.

This 2,500 m² space offers an extensive showcase of innovative products and designs, allowing architects, designers, and other professionals to explore a wide range of options for their projects. More than just a display of the latest design trends, the showroom serves as a tangible testament to our expertise, featuring real examples of what we can achieve in contract projects.

Every corner is thoughtfully curated to demonstrate how our solutions transform spaces—from bespoke carpentry to the finest finishing details—all within an environment that embodies the customization and quality we uphold in every project.
